

# THE BEST UIUX DESIGN SCHOOL IN NIGERIA

# Story

Emmanuella and Shade both live in Lagos state wanted to be successful UI/UX designers. Emmanuella carefully looked into design schools and chose one with a great reputation. She worked hard in her studies, got internships, and finally got a great job. Shade, however, quickly enrolled in a less-known school without checking its quality and resources. Because of this, she faced many problems and struggled to find a job after graduation. Emmanuella's smart choice to pick a good school and her hard work paid off well, while Shade regretted her quick decision.

# The Rise of UIUX Design in Nigeria

In Nigeria, more people are getting into UIUX design because the economy is tough. Jobs are hard to find even for those who finish school. Many jobs don't pay well and are hard to do. So, people are turning to UIUX design because it offers better pay, flexible work hours, and chances to work with people from other countries. Also, Nigeria's unstable economy makes people look for other ways to make money, and UIUX design seems like a good choice for many.

UIUX design stands for **User Interface/User Experience Design**. It's about creating digital products, like websites or apps, that are easy and enjoyable to use. UI design focuses on how things look, such as buttons and layouts, while UX design focuses on how things work and how users interact with the product.

Overall, UIUX design aims to make digital experiences intuitive, efficient, and satisfying for users

# **What you should consider before choosing a UIUX Design School**

## **Curriculum**

Ensure the school offers a comprehensive curriculum covering topics such as user research, interface design, prototyping, usability testing, and industry-standard tools

## **Faculty**

Research the qualifications and experience of the faculty members. Look for school who have instructors who have practical industry experience

## **Industry Connections**

Check if the school has partnerships or collaborations with industry professionals, design agencies, or tech companies.

## **Portfolio Development**

Determine if the school provides support and resources for building a strong design portfolio. A robust portfolio is essential for showcasing your skills and landing job opportunities.

## **Hands-on Projects**

Look for programs that emphasise hands-on learning through practical projects and case studies. This approach allows students gain practical experience that can be applied in real world

## **Internship Opportunities**

Inquire about internship or job placement programs offered by the school. Internships provide valuable industry experience and may lead to full-time employment after graduation.

## **Student Support Services**

Consider the availability of student support services such as career counselling, resume workshops, and job placement assistance.

# Learn more about Perxels

Established in April 2020, Perxels addresses the gap between design education and real-world needs. Our alumni, equipped with practical skills, have landed coveted positions at industry leaders like Providus, Interswitch, NowNow, and Cowrywise. Furthermore, students gain valuable experience and international earning potential.

# Testimonials of the Alumni

Perxels boasts a strong network of alumni who have not only excelled in the field of UIUX design but also attribute their success to the rigorous training and mentorship received at the institution.

Here is a picture of Perxels Alumni and where they work

# **Quality Training in UIUX Design**

Unlike other design schools that offer a broad spectrum of other courses, Perxels specialises exclusively in UIUX design. This focused approach allows the institution to delve deep into the intricacies of the discipline

## **Guaranteed Internship Opportunities**

Perxels goes above and beyond to facilitate practical learning experiences for its students by guaranteeing internship placements

# **Perxels offers UIUX** **Design, both online** **and physical classss**

## **Basic Class**

for beginners and those transitioning into UIUX design.

## **Advanced Class**

for intermediate designers looking to upskill.

## **Premium Class**

intensive training and structured path to guide from basic to advanced level in UIUX design.

## **International Class**

for students outside of Nigeria and Africa.
